BROADWAY SHOPPING CENTRE

MIRVAC'S INTEGRATED MODEL

DESCRIPTION

Broadway Shopping Centre is a Sub-regional shopping Centre located on the fringe of the Sydney central business district, servicing the growing catchment of Sydney's inner city and inner west.

Broadway is one of the most successful retail centres in Australia, generating over \$400 million in sales per annum and attracting over 13 million visitors per year. In 2011, the centre maintained its number two ranking for the third consecutive year in the Shopping Centre News (SCN) Big Guns Awards¹ for annual turnover per square metre.

Big Guns 2012 Awards 2012

UPDATE

Broadway's main trade area is estimated to contain over 280,000 people in one primary sector and three secondary sectors.

The primary sector encompasses the area within approximately 1 km of and includes the suburbs of Pyrmont, Darling Harbour, Ultimo, Glebe, Camperdown, Darlington and Chippendale. Approximately 46 per cent of the Centre's sales are estimated to originate from customers who reside within a 1.5 kilometre radius of the Centre.

The secondary sector includes the suburbs of: Surry Hills, Redfern and Waterloo in the East; Alexandria, Erskineville, Newtown, Enmore, Marrickville, Petersham, Stanmore and Lewisham in the South and Leichhardt, Annandale, Lilyfield, Rozelle and Balmain in the West.

The main trade area is projected to grow between 1.3 per cent to 1.7 per cent per annum through to 2021, which is above the projected New South Wales average projection of 1.1 per cent per annum. This overall growth will be largely driven by a number of residential developments in the primary and secondary east sectors.

The current retail expenditure capacity of the main trade area population is estimated to be over \$3.8 billion and is projected to increase at approximately 5.0 per cent per annum.

The Moving Annual Turnover (MAT) is boosted by a high non-resident population of over 100,000 students and staff at major universities and tertiary colleges within 1 kilometre of the Centre.

In the year to March 2012, growth in foot traffic to the centre was 3.1 per cent compared to the previous year.

SALES PERFORMANCE

Total retail sales of \$411 million (centre MAT as at 30 June 2011) were significantly above the benchmark for peer centres. This above average sales volume reflects the strong performance of the Kmart DDS and Coles supermarket in particular.

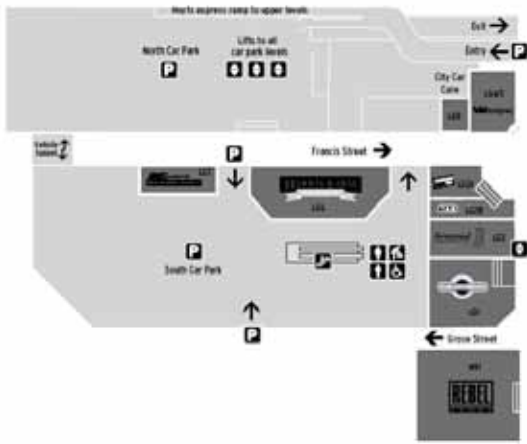

CUSTOMER PROFILE

- Broadway Shopping Centre has a young demographic with 62 per cent aged 20-39 years.
- Customers are predominantly white collar workers (88 per cent of those in the workplace) with high household incomes (14 per cent above the Sydney average with 32 per cent over \$104,000 and 31 per cent over \$120,000) and high disposable incomes (55 per cent rent their home).
- There is a high frequency of visitation per customer with 71 per cent of customers visiting weekly or more often. 10 per cent visit daily.
