### OPERATING PROFIT AFTER TAX

Delivered earnings growth at the top end of guidance

### AFFO

Strong growth in AFFO reflects our continued operating earnings growth together with lower maintenance capex, and tenant incentives across our investment portfolio

### OFFICE AND INDUSTRIAL

Higher EBIT contribution driven by strong NOI growth of 12%, significant development EBIT from Calibre, 477 Collins Street and South Eveleigh and higher fees from growth in assets under management to $15bn

### RETAIL

Solid 26% LFL NOI growth, rental income from recently completed South Village, development EBIT from Kawana offset by loss of NOI from the 50% divestment of Kawana in December 2017

### RESIDENTIAL

Lower EBIT contribution in line with expectations, driven by lower apartment lot settlements in FY19 compared to FY18. Achieved 2,611 lot settlements, higher than the >2,500 lot settlement target

### CORPORATE

Property NOI from our Tuckerbox JV (Travelodge Hotels) investment was $2m less than FY18 given competitive market conditions, corporate overheads remained relatively flat
